The Definition of a Student Employee

A student employee is defined as anyone employed by the University of Michigan whose primary purpose for being at the University is to obtain an education:

Any individual employed in a temporary position who is also enrolled at least half-time* is presumed to be primarily a student and will be considered a student employee, unless facts clearly indicate otherwise. Student employee status is not affected during periods of typical non-enrollment, such as breaks between consecutive terms or during the Spring/Summer term, regardless of hours worked.

* Some exceptions apply to dissertation students and graduating seniors.
Online Hiring Application

To be employed at the University or to work for a University-approved off-campus employer, University of Michigan-Ann Arbor students must complete an online Student Employment Application located on the Wolverine Access (Student Business) website (https://wolverineaccess.umich.edu). To learn more about the online hiring application, see the University’s Human Resources website at hr.umich.edu/working-u-m

Payment, Schedules, and Benefits

PAYMENT:
Students working for U-M are paid on a regular, bi-weekly schedule. See https://studentemployment.umich.edu and select U-M Students > Information for Students > Getting Paid (menu at left) for payroll schedules. Students are paid every other Friday from the University Payroll Office. Students may choose to deposit their payroll checks directly to a local bank account via Direct Deposit, the University’s recommended method for delivering paychecks. Direct Deposit information is located on the Student Business section of Wolverine Access (https://wolverineaccess.umich.edu). Students should expect to be paid within three weeks of completing and submitting employment materials and starting work. If you do not receive your first paycheck within three weeks, contact your supervisor for assistance.

It is important to note that you will not be paid, and should not work, until all employment materials have been completed.

Students working for non-University employers will be paid according to their employer’s pay dates.

WORK SCHEDULES:
Student work schedules are based upon the employer’s needs and the student’s academic schedule. Students should discuss their schedule with their employers during interviews. Employers will make every attempt to accommodate students’ needs, but might not be able to schedule students for evening or weekend employment. Students may not work more than 29 hours per week.

BENEFITS:
Student temporary employees are covered by:
- The University’s Overtime Policy
- Worker’s Compensation
- Social Security
- Travel Accident Insurance

Social Security is deducted from a student employee’s wages only if he or she is enrolled less than half-time or not enrolled at the University. Student employees do not receive paid vacation, sick time, paid holidays, or health care benefits.

The Work-Study Program

Work-Study is a financial aid resource that is awarded to students who have financial need. The award provides jobs for undergraduate and graduate students, allowing them to earn money to help pay educational expenses. Students earn Work-Study funds by performing part-time work for employers who qualify for the program under federal guidelines. These employers pay only a percentage of the student’s wages, while the federal government pays the remaining amount. To receive Work-Study, students must:
- apply for financial aid through the Office of Financial Aid, and
- demonstrate financial need.

Students who qualify for a Work-Study award will have “Federal Work-Study” listed on their financial aid award notice. If you do not have a Work-Study award, you may only apply for the non-Work-Study jobs listed on the Student Employment Office website.

For more information on applying for financial aid and the Work-Study program, see www.finaid.umich.edu/work.

ENROLLMENT REQUIREMENTS:
